Misc: Git / GitHub / Photoshop / Illustrator /

PROJECTS

Meme House | github.com/madeleineprak/Meme-House | meme-house-ggm.herokuapp.com
Bulma.io, React, Express.js, Cloudinary, Passport.js, MongoDB, Mongoose

- Meme House allows users to create, upload, view, and 'like' memes. Users may use meme templates of their own or templates provided by the website
- Core responsibilities included creating the 'meme generator', overall UI/UX design, and Cloudinary database usability

Grouper | github.com/sjconst/mvc-group-project | pure-meadow-76725.herokuapp.com/
Materialize CSS, jQuery, MySQL, Sequelize, Node.js, Express.js, Crystal API

- Grouper allows users to take Myers-Briggs, Disc, and Enneagram personality tests. Once the results are obtained, they may group their results with other users
- Core responsibilities included creating a user-friendly homepage and form fields that connects to the MySQL database.

Twice Clicky Game | github.com/gerarjon/twice-clicky-game | gerarjon.github.io/twice-clicky-game/
Bootstrap, React, JavaScript, CSS

- A React game that tests the player's memory retention ability by displaying KPOP members of Twice and having the player click on each member only once
- This solo project included learning React components and Bootstrap

PROFESSIONAL EXPERIENCE

Prometric Testing, Mountlake Terrace, WA   *August 2019 – January 2020*
Test Center Administrator

- Administered over 100 unique exams requiring candidate identification, created comfortable testing experiences, and wrote detailed reports and correspondence
